PRODUCT SPECIFICATION SHEET

MUSSEL FLOAT

MUSSEL FLOAT

PRODUCT CODE: TP986

Designed to withstand the pressures of large waves and to sit steadily on the water, our Mussel Float has been tried and tested in the most exposed ocean settings.

Suitable for inshore and offshore locations, they've been used in a wide range of applications including many mining functions on river systems and dams across Australia.

They're constructed using a Linear Low Density Polyethylene (LLDPE) which is especially formulated with UV stabilisers to suit marine applications. They have around 315kg of displacement, making them ideal for use in long line farming methods.

FEATURES

- > Rotomoulded construction
- > Made from highly durable LLDPE
- > UV Stabilised
- > Available in Black
- > Strong and Durable
- > Low Maintenance and Cost Effective
- > 3 mounting locations
- Non corrosive construction
- > Exceptionally stiff and robust
- > Ideal for both inshore and offshore locations
- > LLDPE material used is in the construction is non toxic

DIMENSIONS

- 670 mm Body Diameter
- 775 mm Overall Height
- 1380 mm Overall Length
- 125 x 55 mm Handle Opening
