Under Vehicle Armour

UP001BL001

Standard

UP002BL002

ARB Recovery Point Variant

**Application:**

Ford Ranger PXII, PXIII

Ford Everest

**Fitting:**

Refer Part Number Matrix

**Available:** August 2020

PROUDLY  
AUSTRALIAN MADE

## Product Specification

Designed to offer superior protection the SmartBar Under Vehicle Armour (UVA) is a complete replacement of the vehicle OE skid pan. The UVA is designed specifically to suit The Ford Ranger PXII, PXIII and Ford Everest.

Manufactured from UV stabilised crosslink polymer that's non-corrosive and offers superior heat resistance, UVA is designed upon a deep rib structure to ensure its strength properties are carried across the entire protection panel.

Additionally, its vehicle-specific design is specially styled to complement the aesthetics of the Ford Ranger and Ford Everest while maintaining compatibility with the OE bumper, ARB bull bars, SmartBar SpartanBar and StealthBar.

\* Not inclusive of recovery point fit time.

## Protection & Styling Characteristics:

- Weight savings provide improved fuel economy and reduced tyre, suspension and brake wear when compared to other after market alternatives
- Fitted Weight of **8.6kg**
- Easy disassembly for vehicle service access
- Deep rib structure provides continual strength through entirety of UVA
- Increased protection against impact to inner CV joints
- Reinforcing bracketry to protect transfer case against impact
- Heat resistant material
- Non corrosive UV stabilised crosslink polymer
- Styled to complement the vehicle's aesthetic
- Proudly designed and manufactured in Australia
- Minimal repair costs after impact
- Available in black
- Compatible with ARB recovery point
- Freight Information: 1230mm x 870mm x 150mm - 23kg

## Lightweight:

The SmartBar UVA is a complete OE skid pan replacement and has a fitted weight of 8.6kgs.

## Non corrosive:

The SmartBar UVA is manufactured using a non corrosive, UV stable, heavy duty polymer, which is the same impact resistant material that is used for manufacturing the ARB Frontier Tank.

## Compatibility:

The SmartBar UVA is compatible with the Ford Ranger PXII and PXIII, the Ford Everest from 2015 onwards.

Compatible with OE Bumper, ARB Bullbars and SmartBar SpartanBar & StealthBar.

## Recovery Point:

The SmartBar UVA is compatible with the ARB recovery point.

## Strength:

The shape of the SmartBar UVA is designed specifically to increase the products strength against impact. The UVA is supported directly against the chassis with added bracketry.

## Heat Resistant

The UVA is resistant against vehicle exhaust heat.

DPF regeneration can be preformed with the SmartBar UVA installed.

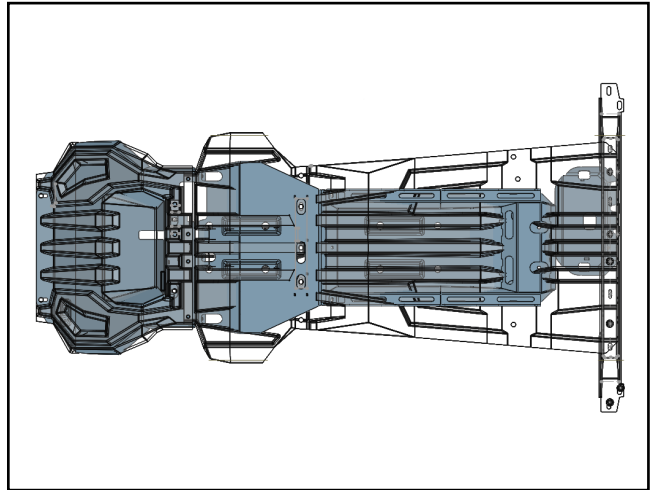

Refer vehicle owners manual for safe DPF regeneration processes.

## Protection:

The SmartBar UVA provides an increased coverage of the under-body of the vehicle compared to alternative products, resulting in superior protection to vehicle components.

Alternative product in blue underlay.

## Serviceability:

Made up from three individual parts, the UVA is designed for serviceability. Each piece has been designed so that it can be removed easily to allow individual access to different parts of the vehicle for servicing.

Image shows centre piece removed for oil change.

## Installation:

The SmartBar UVA completely replaces the OE skid pan and is easy to install.

# PART NUMBER MATRIX

## FORD RANGER PXII 07/15-07/18

	Standard	ARB Recovery Point Variant
Fitting Time	1 Hour	1 Hour <sup>1</sup>
Ford Ranger PXII	UP001BL001	UP002BL002

## FORD RANGER PXIII 08/18+

	Standard	ARB Recovery Point
Fitting Time	1 Hour	1 Hour <sup>1</sup>
Ford Ranger PXIII	UP001BL001	UP002BL002

## FORD EVEREST 2015+

	Standard	ARB Recovery Point
