PRODUCT SPECIFICATION SHEET

ABALONE TRAY

ABALONE TRAY

PRODUCT CODE: TP979

SmartBar manufactured Abalone Trays are constructed using a rotationally moulded Linear Low Density Polyethylene (LLDPE) which is perfectly suited to marine applications. These trays have been specially designed to closely mirror the natural environment that abalone inhabit on rocks and reefs.

This enables the abalone to feed and grow more effectively, reducing the amount of handling required and in turn stress caused to the animals. Less handling and stress results in maximum growth rates and ultimately increased market value of the abalone.

FEATURES

- > Rotomoulded construction
- > Made from highly durable LLDPE
- > UV Stabilised
- > 75mm outlet
- > Available in Black
- > Strong and Durable
- > Low Maintenance and Cost Effective
- > Will not corrode or rust
- > Easy to Handle and Manoeuvre
- > Minimises stress and mortality of Abalone
- > Maximise growth and yield rates
- > LLDPE material is compliant with section 5 and Clause 6.1 of AS/NZS 4766:2006

DIMENSIONS

L 2290 x W 1330 x H 565
