

# FORD EVEREST SPARTANBAR MY22

Suits Next-Generation Ford Everest

PRODUCT SPECIFICATIONS

**Description:**

Ford Everest SpartanBar

**Application:**

Next-Generation Ford Everest MY22  
(All variants except Raptor)

**Fitting Time:**

Refer to matrix for accessory fitup

**Fitted Weight:**

44kg (Non-Winch)

54kg (Winch)

**Dimensions:**

Bar adds 215mm to vehicle length

**Standards:**

Meets AS 4876.1-2002.

Including 3.2 Road User Protection.

**Available:**

Now

**Freight Information:****Non Winch-**

Bar 1940mm L x 790mm W x 700mm H & 38kg

Bracket Kit 910mm L x 450mm W x 310mm H & 28kg

**Winch-**

Bar 1940mm L x 790mm W x 700mm H & 38kg

Bracket Kit 910mm L x 500mm W x 310mm H & 39kg

**Radar-**

Radar/Camera + Radar Kit 200mm L x 180mm W x 120mm H & 1kg

**PROUDLY  
AUSTRALIAN MADE**

The Ford Everest SpartanBar has been developed in collaboration with Ford to offer a durable and lightweight frontal protection system. Suitable for all Next-Gen Models, the SpartanBar is designed, engineered and manufactured in Australia to compliment the styling of the Next-Gen Everest and provide superior protection.

Designed utilising a unique hollow construction and constructed from a tough, corrosion and rust-resistant UV-stabilised polymer, SpartanBars provide frontal protection for your vehicle with the ability to absorb impact and return to shape in the case of an incident. Thanks to their lightweight properties, SpartanBars assist with minimising the vehicle GVM, improving fuel economy and reducing tyre and brake wear compared to alternative bullbars.

Accommodating the fitment of a range of aftermarket safety and 4X4 accessories, the SpartanBar is available in winch and non-winch variants all compatible with the Ford Advanced Driver Assistance Systems (ADAS). The SpartanBar is the perfect solution for all your rural and remote travel, off-roading, touring, and fleet vehicle protection needs.

- Bar available in black as standard. (Other colours available for larger order quantities.)

# Safety Features

SmartBar puts safety at the forefront. Going above and beyond the Australian Safety Standards, to ensure the safety of the vehicle, occupants and pedestrians. SpartanBars go through exhaustive testing, which proves the superiority of our impact resistant technology allowing us to confidently stand behind the quality and safety of our bull bars.

## Chassis Mounts:

The chassis mount design comprises of a bracket construction which allows for three axis of adjustability, to achieve a solid and perfect fit every time.

All brackets have been tested and comply with Vehicle Air Bag, and Australian Safety Standards.

## Pedestrian Safety:

SmartBar's have been tested to Australia's Pedestrian Safety ratings and proven to be less likely to cause serious injury to pedestrians than other alternatives. This is due to the hollow construction which allows the bar to absorb most of the impact along with the unique and specifically designed co-polymer material.

## Intergrated Sensors:

The SpartanBar is compatible with all Ford Advanced Driver Assistance Systems (ADAS). All SpartanBars come with an integrated Radar & Camera\* housing. Safety features include but not limited to -

- Intelligent Adaptive Cruise Control (iACC)
- Lane Keeping System
- Driver Alert Systems
- 360-Degree Camera
- Autonomous Emergency Braking

*\*Camera only applies to variants with a front camera. Refer to matrix on final page for more information.*

**Impact absorbing hollow construction means increased safety, and minimal repair costs after impact.**

Manufactured from environmentally friendly, recyclable polyethylene polymer. UV stabilised polymer for durability and corrosion resistance and therefore minimal maintenance.

Lightweight design provides weight savings which improve fuel economy and reduce tyre, suspension and brake wear when compared to other alternatives.

# Product Features

	Feature	Description	Included	Optional	Part Number
	<b>4-in-1-Light</b>	All MY22 Ford Everest SpartanBars come standard with an 4-in-1 light. This includes daytime running light, fog light, park light and indicator functions. The 4-in-1 light comes with a 5 year warranty.	✓		
	<b>Parking Sensors</b>	The SpartanBar is compatible with parking sensor variants of the Next-Generation Ford Everest. See matrix on the page 8 to find part numbers for the compatible bars.	✓
