

# TOYOTA LANDCRUISER 70 SERIES STEALTHBAR

Suits Single Cab, Dual Cab, Wagon, Troop Carrier  
MY24 onwards

PRODUCT SPECIFICATIONS

**Description:**

Toyota Landcruiser 70 Series StealthBar

**Application:**

Suits all LandCruiser 70 Series variants from MY24 Onwards

**Fitting Time:**

Refer to matrix for accessory fitup

**Fitted Weight:**

18kg (Winch Compatible)

**Dimensions:**

Bar adds 100mm to vehicle length

**Standards:**

Meets AS 4876.1-2002.

Including 3.2 Road User Protection.

**Available:**

July 2024

**Freight Information:**

Bar & Bracket Kit Box

1900mm x 770mm x 400mm and 59kg

**PROUDLY  
AUSTRALIAN MADE**

A lighter, streamline bull bar, made to protect your Toyota Landcruiser 70 series. Designed, engineered and manufactured in Australia, the StealthBar was developed strategically to fit all Toyota 70 series models and variants from 2024 onwards, including the Toyota Safety Sense models.

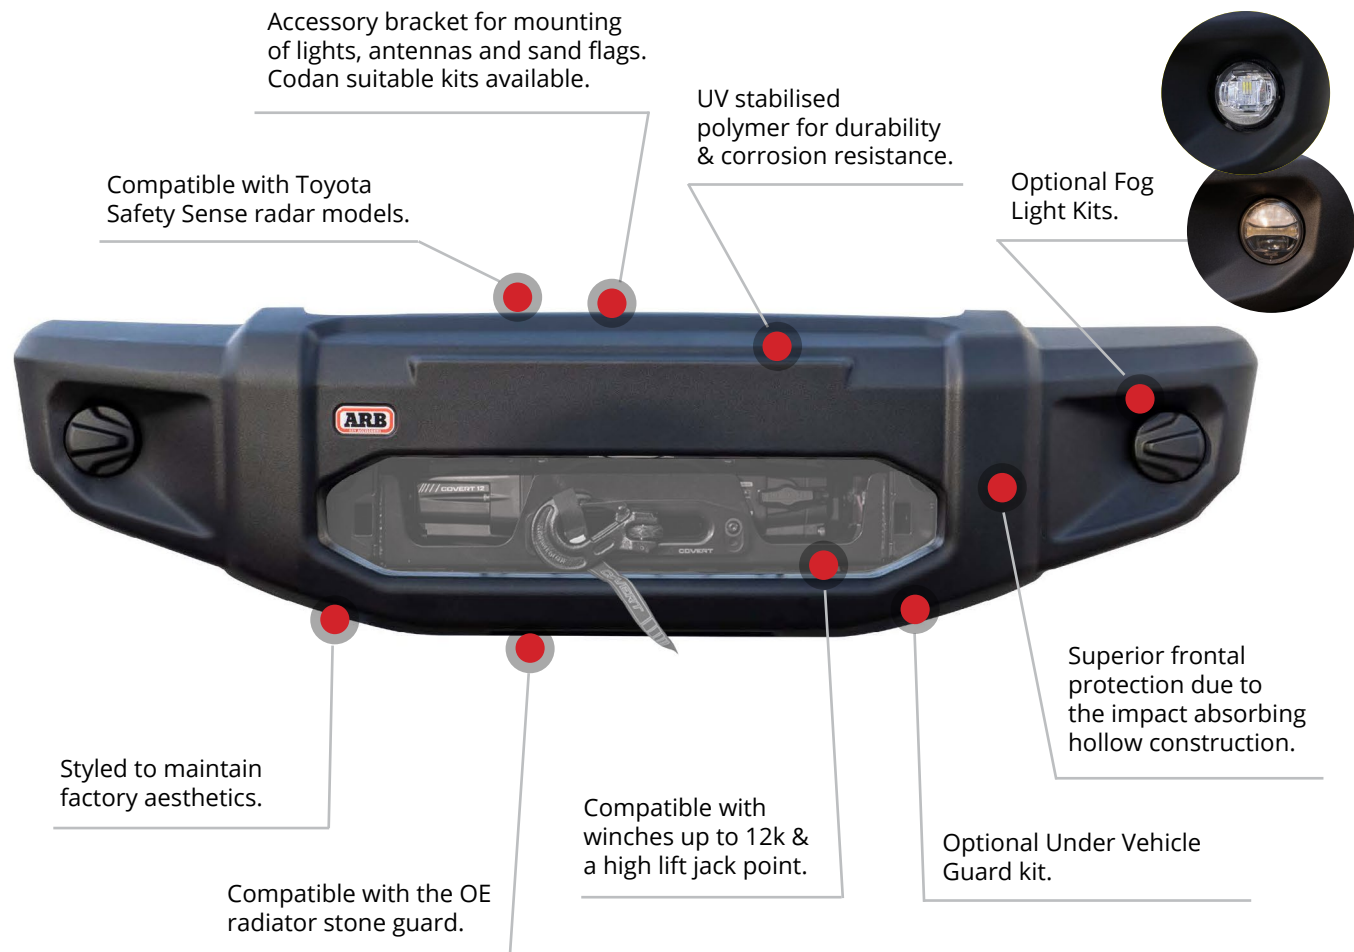

A full bumper replacement, the bull bar sports a tough low profile look, that seamlessly fits the Landcruiser aesthetic, while providing unparalleled safety.

Designed with a unique hollow construction and built from a durable, corrosion and rust resistant UV stabilised polymer, StealthBars provide superior frontal protection for your vehicle with the ability to absorb on impact and then return to shape in the case of an incident. Thanks to their lightweight properties, StealthBars assist with minimising the vehicle GVM, improving fuel economy and reducing tyre and brake wear compared to alternative bullbars.

Accommodating the fitment of a range of aftermarket safety and 4X4 accessories, the StealthBar is also compatible with various winches up to 12,000lbs. The StealthBar is a streamline platform, perfect for mounting your 4x4, safety or communications accessories, for work or play.

Suitable for all workmate, GX and GXL Models, the SmartBar is engineered to be the lightest bull bar available; while offering superior protection and safety for vehicle owners and importantly, pedestrians.

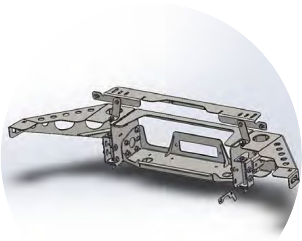

StealthBar's are the only bull bar approved for use in Europe.

- Bar available in black as standard. (Other colours available for larger order quantities.)

# Safety Features —

Safety at the forefront of design. StealthBars go above and beyond the Australian Safety Standards, to ensure the safety of the vehicle, occupants and pedestrians. Undergoing exhaustive testing, which proves the superiority of our impact resistant technology allowing us to confidently stand behind the quality and safety of our bull bars.

## Chassis Mounts:

The chassis mount design comprises of a bracket construction which allows for two axis of adjustability, to achieve a solid and perfect fit every time.

All brackets have been tested and comply with Vehicle Air Bag, and Australian Safety Standards.

## Pedestrian Safety:

ARB polymer bull bars have been tested to Australia's Pedestrian Safety ratings and proven to be less likely to cause serious injury to pedestrians than other alternatives. This is due to the hollow construction which allows the bar to absorb most of the impact along with the unique and specifically designed co-polymer material.

## Integrated Sensors:

The Toyota 70 Series StealthBar is designed to be compatible with Toyota Safety Sense radars.

Toyota Safety Sense features include (but not limited to):

- Stability and traction control
- Pre-collision system and radar
- Airbag sensors

Impact absorbing hollow construction means increased safety, and minimal repair costs after impact.

Manufactured from environmentally friendly, recyclable polyethylene polymer. UV stabilised polymer for durability and corrosion resistance and therefore minimal maintenance.

Lightweight design provides weight savings which improve fuel economy and reduce tyre, suspension and brake wear when compared to other alternatives.

# Product Features

	Feature	Description	Included	Optional	Part Number
	<b>Safety Sense Compatibility</b>	<p>The StealthBar is compatible with Toyota Safety Sense. (Excluding SA330BL314)</p> <p><i>For further details on accessory fitment see page 7.</i></p>	✓		
	<b>Accessory Mounting</b>	<p>This StealthBar is supplied with an accessory mounting plate to mount a range of driving lights and other accessories.</p> <p><i>For further details on accessory fitment see page 7.</i></p>	✓		
	<b>Codan Compatible</b>	<p>For non-safety sense vehicles (SA330BL314 Bar) only.</p> <p>Codan radio antennas are compatible with the StealthBar.</p> <p><i>Mounting bracket kit is necessary.</i></p>		✓	SA259CDM
	<b>Antenna and Sand Flag Mounting</b>	<p>Antenna and Sand flags can be mounted to the Accessory Mounting Plate in 2 locations.</p>	✓		
	<b>Recovery Points</b>	<p>The StealthBar is compatible with the ARB Recovery Point.</p> <p>Not compatible with the forged recovery points 2812060 and 2812070.</p>		✓	2812030

	Feature	Description	Included	Optional	Part Number
	<b>Winch Compatibility</b>	The StealthBar is compatible with winches rated up to 12,000lb. See page 7 for full winch details.	✓		<i>See matrix for part numbers.</i>
	<b>High Lift Jack Points</b>	Suitable for use of high lift jacks utilising the optional high lift jack point on either the left or right hand side of the StealthBar.		✓	<i>High lift jack point- SAHLJ1</i>

### Important Notes!

#### Safety Sense vehicles:

- Compatible driving lights can be fitted. **Light Bars are not compatible.**
- Install spotlights as close to the vehicle as possible to avoid interference with the radar.
- Antennas and Sand flags can be mounted.
- Do not mount lights not specified or in a position other than the mounting slots provided, as it may affect the operation of the safety radar.

#### Non-Safety Sense vehicles:

- With the standard supplied mounting plate, Spotlights can be mounted.
- Antenna and Sand flags can be mounted, alongside lights and/or Codan.
- Light Bars are only compatible on Non-Safety Sense models.

**Please note:**

<sup>1</sup> Troop Carriers do not have flared models.

<sup>2</sup> All models with fog lights & GXL Models require the purchase of the Fog Light Kit.

<sup>3</sup> Flip up license plate kit (3500630) recommended when fitting winch with standard height license plate.

<sup>4</sup> When installing the All-in-1 Light kit on a vehicle that does not have factory fog lights, ARB Fog Light Wiring Loom (3500530) is required. This loom is sold separately.

<sup>5</sup> Single Cab Models are ANCAP rated chassis (Australia only).

<sup>6</sup> SA330BL314 kit suits Non-Flared vehicles without Safety Sense only. SA259CDM is required for mounting CODAN.

<sup>7</sup> Optional mesh and infill kit SA288IMK available for all bars, this is only if a winch is not being installed.
