

TOYOTA LANDCRUISER 70 SERIES SPARTANBAR

Suits Single Cab, Dual Cab, Wagon, Troop Carrier
MY24 onwards

PRODUCT SPECIFICATIONS

Description:

Toyota LandCruiser 70 Series SpartanBar

Application:

Suits all LandCruiser 70 Series variants from MY24 Onwards

Fitting Time:

Refer to matrix for accessory fitup

Fitted Weight:

30kg

Dimensions:

Bar adds 50mm to vehicle length

Standards:

Meets AS 4876.1-2002.

Including 3.2 Road User Protection.

Available:

August 2024

Freight Information:

Bar 1900 L x 660 W x 830 H mm and 26kg

Bracket Kit 1160 L x 340 W x 300 H mm and 34kg

**PROUDLY
AUSTRALIAN MADE**

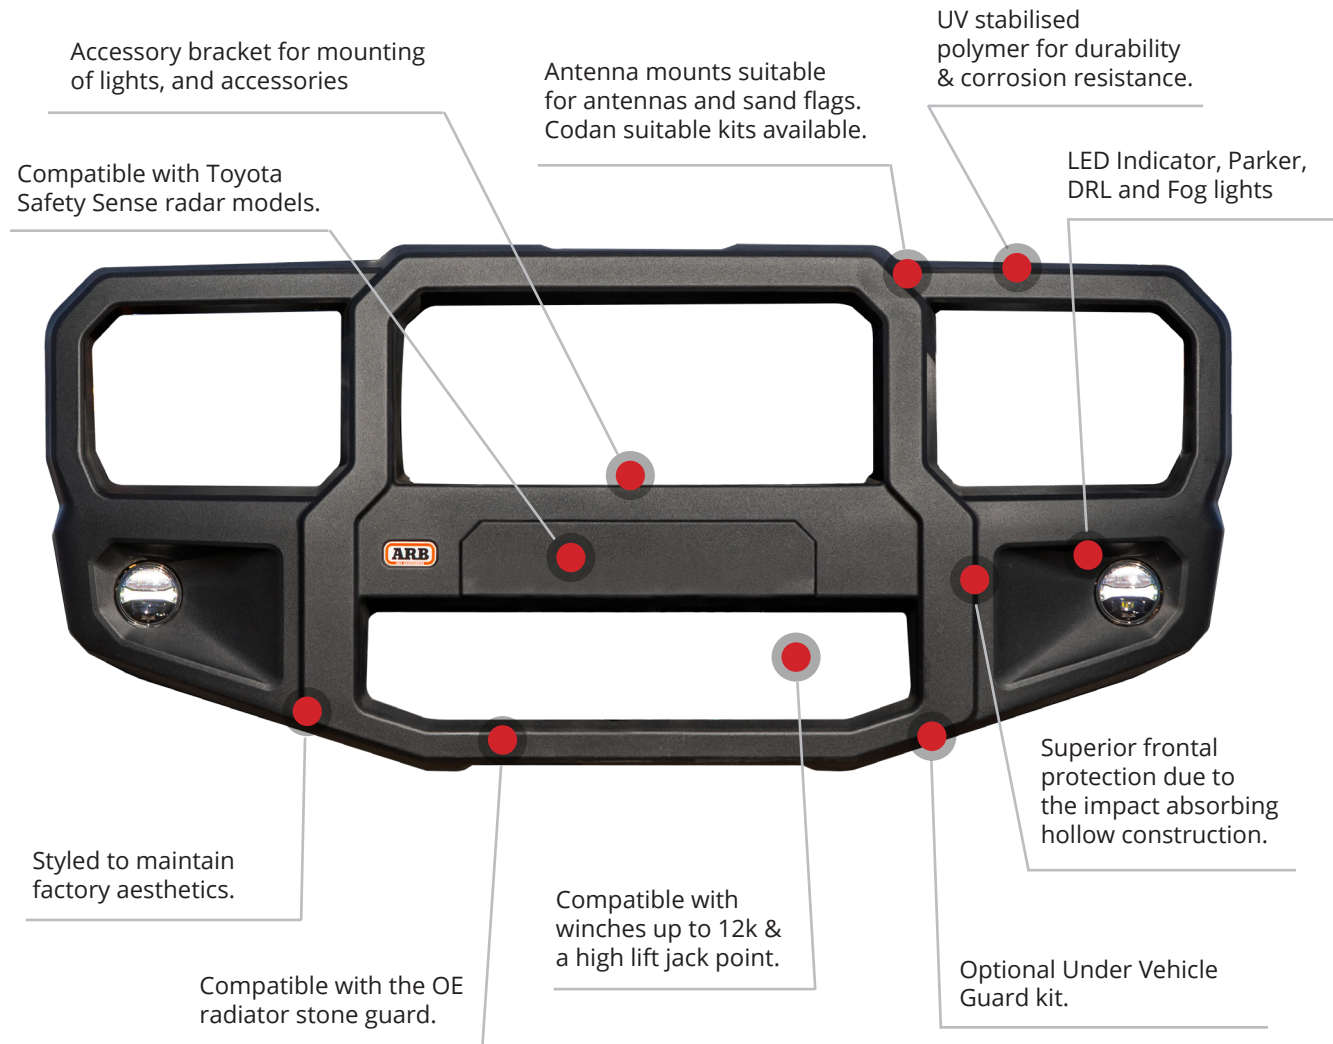

The highly durable and lightweight SpartanBar is at the forefront of safety, built to protect the front of your Toyota LandCruiser 70 series vehicle. Designed, engineered and manufactured in Australia, the SpartanBar is specifically designed to suit all Toyota 70 series models and variants from 2024 onwards, including Toyota Safety Sense systems.

A complete bumper replacement that seamlessly fits the LandCruiser aesthetic while providing unparalleled safety, it features a unique hollow construction and is manufactured from a durable, corrosion and rust-resistant UV stabilised polymer.

The SpartanBar provides superior frontal protection for your vehicle with the ability to absorb impact and then return to shape after an impact. Thanks to its lightweight properties, SpartanBar assists with minimising the impact on vehicle GVM, improving fuel economy and reducing tyre and brake wear compared to alternative bull bars.

The SpartanBar can accommodate fitment of popular 4X4 and safety accessories, including various winches up to 12,000lbs.

A versatile frontal protection system suits all Workmate, GX and GXL Models. It is engineered to be the lightest bull bar available, offering superior protection and safety for vehicle owners and pedestrians.

- Bar available in black as standard. (Other colours available for larger order quantities.)

Safety Features —

Safety is our top priority at ARB SmartBar. Our bull bars are engineered to protect the vehicle, occupants and pedestrians, exceeding Australian safety regulations. With advanced impact resistance and rigorous testing, you can trust the SpartanBar to deliver the highest level of safety on the road.

Chassis Mounts:

The chassis mount design comprises of a bracket construction which allows for two axis of adjustability, to achieve a solid and perfect fit every time.

Pedestrian Safety:

ARB polymer bull bars have been tested to Australia's Pedestrian Safety ratings and proven to be less likely to cause serious injury to pedestrians than other alternatives. This is due to the hollow construction which allows the bar to absorb most of the impact along with the unique and specifically designed co-polymer material.

Integrated Sensors:

The Toyota 70 Series SpartanBar is designed to be compatible with Toyota Safety Sense radar.

Toyota Safety Sense features include (but not limited to):

- Stability and traction control
- Pre-collision system and radar
- Airbag sensors

- Impact absorbing hollow construction means increased safety, and minimal repair costs after impact.
- Manufactured from environmentally friendly, UV stabilised polymer for durability and corrosion resistance and therefore minimal maintenance.
- The lightweight design provides weight savings which improve fuel economy and reduce tyre, suspension and brake wear when compared to other alternatives.

Product Features

	Feature	Description	Included	Optional	Part Number
	<p>Safety Sense Compatibility</p>	<p>The SpartanBar is compatible with Toyota Safety Sense. <i>Note: Part no. SA321BL328 is designed for non-Safety Sense, non flared models.</i> For further details on accessory fitment see page 7.</p>	<p>✓</p>		
	<p>Accessory Mounting</p>	<p>This SpartanBar is supplied with an accessory mounting plate to mount a range of driving lights and other accessories. For further details on accessory fitment see page 7.</p>	<p>✓</p>		
	<p>Codan Compatible</p>	<p>Codan radio antennas are compatible with the SpartanBar. Mounting bracket kit is required to fit the Codan Antenna.</p>		<p>✓</p>	<p>SA321CDM</p>
	<p>Antenna and Sand Flag Mounting</p>	<p>Antenna and Sand flags can be mounted via antenna mounting brackets. Inner Mount: SAAMB27 (1 supplied, with 1 optional available) Outer Mount: SA321AMR (right) & SA321AML (left) both optional, one location for each.</p>	<p>✓</p>	<p>✓</p>	<p>OUTER LEFT - SA321AML OUTER RIGHT - SA321AMR INNER - SAAMB27</p>
	<p>Recovery Points</p>	<p>The SpartanBar is compatible with the ARB Recovery Point. Not compatible with the forged recovery points 2812060 and 2812070.</p>		<p>✓</p>	<p>2812030</p>

	Feature	Description	Included	Optional	Part Number
	<p>Winch Compatibility</p>	<p>The SpartanBar is compatible with winches rated up to 12,000lb. See page 7 for full winch details.</p>	<p>✓</p>		<p><i>See matrix for part numbers.</i></p>
	<p>High Lift Jack Points</p>	<p>Suitable for use of high lift jacks utilising the optional high lift jack point on either the left or right hand side of the SpartanBar.</p>		<p>✓</p>	<p><i>High lift jack point- SAHLJ1</i></p>
