

# MITSUBISHI TRITON STEALTHBAR

Suits Mitsubishi MV Triton MY24+

PRODUCT SPECIFICATIONS

**Description:**

Mitsubishi Triton StealthBar

**Application:**

Mitsubishi MV Triton MY24+

**Fitting Time:**

Refer to matrix for accessory fitup

**Fitted Weight:**

31kg (Non-Winch)

36.5kg (Winch)

**Dimensions:**

Bar adds 185mm to vehicle length

**Standards:**

Meets AS 4876.1-2002.

Including 3.2 Road User Protection.

**Available:**

March 2025

**Freight Information:**

**Non Winch-**

Bar & Bracket Kit 1970mm L x 740mm W x 385mm H & 46.5kg

**Winch-**

Bar & Bracket Kit 1970mm L x 740mm W x 385mm H H & 53kg

**PROUDLY  
AUSTRALIAN MADE**

Designed specifically for the Mitsubishi Triton MV, the ARB StealthBar is the ultimate blend of safety, style, and functionality. Engineered using ARB SmartBars advanced impact-absorbing polyethylene materials, the StealthBar provides increased frontal protection while remaining incredibly lightweight maintaining your vehicle's GVM, efficiency and handling.

Its UV-stabilised material offers great resilience, while the durable hollow construction ensures longevity even within Australia's harshest environments. With safety at the forefront of design it maintains ADR compliance and seamlessly integrates with the Triton's factory safety systems, compatible with airbags, parking sensors, and radar-based driver assistance features that provides confidence for both occupants and pedestrians.

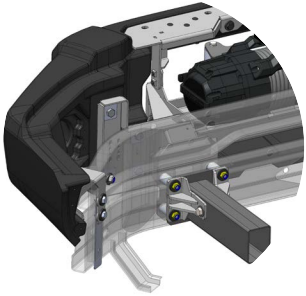

Beyond protection, the StealthBar is a versatile platform for aftermarket accessories, offering mounting options for UHF antenna, driving lights, and safety flags. Available in both winch and non-winch compatible models, it's the perfect solution for those seeking a modern, functional, and safety-focused bull bar.

# Safety Features

SmartBar puts safety at the forefront. Going above and beyond the Australian Safety Standards, to ensure the safety of the vehicle, occupants and pedestrians. StealthBars go through exhaustive testing, which proves the superiority of our impact resistant technology allowing us to confidently stand behind the quality and safety of our bull bars.

## Chassis Mounts:

The chassis mount design comprises of an adjustable bracket construction which allows for 2 axis of adjustability, to achieve a solid and perfect fit every time.

All brackets have been designed to comply with Vehicle Air Bag and Australian Safety Standards.

## Pedestrian Safety:

SmartBar's have been tested to Australia's Pedestrian Safety ratings and proven to be less likely to cause serious injury to pedestrians than other alternatives. This is due to the hollow construction which allows the bar to absorb most of the impact along with the unique and specifically designed co-polymer material.

## Integrated Sensors:

The Mitsubishi Triton MY24 StealthBar is compatible with all Mitsubishi radars and Driver Assistance Systems.

Including (but not limited to):

- Front and side radars
- Front camera
- Parking sensors

Impact absorbing hollow construction means increased safety, and minimal repair costs after impact.

Manufactured from environmentally friendly, recyclable polyethylene polymer. UV stabilised polymer for durability and corrosion resistance and therefore minimal maintenance.

Lightweight design provides weight savings which improve fuel economy and reduce tyre, suspension and brake wear when compared to other alternatives.

# Product Features

	Feature	Description	Included	Optional	Part Number
	<b>Safety Radars &amp; Parking Sensors</b>	The StealthBar is compatible with all Mitsubishi original front and side radars and front parking sensors.  See matrix for details.	✓	-	-
